## Tier 2 Problem Solving to Improve Student Outcomes

# Essentials for successful problem solving at Tier 2

# Objectives

Participants will:

- Understand the importance of Tier 2 as part of an effective MTSS
- Know how to identify students in need of Tier 2 intervention
- Understand problem analysis at Tier 2 and how it informs intervention design
- Understand the characteristics of Tier 2 interventions
- Know how to determine if Tier 2 interventions are effective

# Tier 2

Tier 3: Intensive, Individualized, Interventions.  
Individual or small group interventions.

## **Tier 2: Supplemental, Targeted, Strategic Interventions & Supports.**

*More targeted interventions and supplemental support in addition to the core curriculum and school-wide positive behavior program.*

Tier 1: Core Instruction & Supports.  
General instruction and support provided to all students in all settings.

# Tier 2: Part of “System”

# STEP 1: Problem Identification

## 2025 Regional Literacy Institute: Tier 2 Problem Solving Vignette

### Step 1 – Problem Identification

QUESTION: Which students are in need of supplemental intervention?

Sunnyville High School's 9<sup>th</sup> grade English PLC established the criteria for Tier 2 intervention as, "students scoring below the 25<sup>th</sup> percentile on PM2 FAST ELA Reading."

Total number of 9<sup>th</sup> grade students: 287

Number of students below the 25<sup>th</sup> percentile: 75

1. What percent of Sunnyville's 9<sup>th</sup> grade students scored below the 25<sup>th</sup> percentile on FAST ELA Reading? What other sources of data would be helpful to identify students who may benefit from supplemental intervention?

## Review & Respond

# STEP 1 Discussion

- What was the PLC working to identify?
- What was the criteria that they established for Tier 2?
- How did you respond to the questions in the handout?

## Step 2 – Problem Analysis

QUESTION: *Why are some students scoring below the 25th percentile on FAST?*

The PLC reviewed achievement level data for the three measured reporting categories (Reading Prose and Poetry, Reading Informational Text, and Reading Across Genres and Vocabulary) for the 75 students identified as needing Tier 2 intervention. The percent of students scoring within each achievement level is below.

**FAST PM2 ELA Reading by Performance Category for Students Identified for Tier2**

1. How can these data help the team begin to understand the students' needs?
2. What high probability skills gaps may be contributing to high numbers of 9th grade students performing below the standard?
3. What other data could the PLC review to identify specific instructional needs and select a matched intervention?

# STEP 3: Intervention Design

## Step 3 – Intervention Design

QUESTION: *What supplemental intervention will be provided to small groups of students with similar needs?*

1. When could the planned intervention occur? Complete the Intervention Plan by indicating when the intervention will occur in the first column.
2. How could fidelity of the intervention plan be monitored? Indicate your response in the "Fidelity Documentation" column below. Consider both quantity and quality.

**Goal (SMART):** By 3/12/25, students will correctly define at least 80% of words on the 9<sup>th</sup> grade academic vocabulary word list, as measured by the 9<sup>th</sup> grade academic vocabulary word list assessment.

# STEP 4: Response to Intervention

2025 Regional Literacy Institute: Tier 2 Problem Solving Vignette

## Step 4: Response To Intervention

QUESTION: Is the intervention resulting in growth for all students within the group?

The PLC found that 67% of the students in Mr. Greco's group made progress toward the goal (Goal: correctly define at least 80% of the words on the academic vocabulary word list, by the 3/12/25 assessment).

Was the students' response positive, questionable or poor?

Decision Rules:

Positive Response:  $\geq 70\%$

Questionable: 26%-69%

Poor:  $\leq 25\%$

Given the students response to the Tier 2 intervention, what would you recommend as next steps for the team?
